

Protective Clothing	HCS	DOT
	CLASS: Corrosive material	

Section I. Product Identification and Uses

Synonyms	Not available.	HMIS	H 3 F 0 R 0 PE D
Common/Trade name	Phosphoric Acid 85%	TSCA	TSCA inventory: Listed.
Chemical name	Not applicable		TSCA 12(b) one time export: Not Listed.
Chemical formula	Not applicable		TSCA 12(b) annual export notification: Not Listed.
Chemical family	Acid.	DSL	CEPA DSL: Listed. CEPA NDSL: Not Listed.
Manufactured/Supplied	Dystar L.P. 209 Watlington Rd. Reidsville, NC 27320 USA (336) 342-6631	CAS#	7664-38-2
Material uses	Not available.	Code	700423
Validation Date	Validated on 1/10/2013.	Molecular weight	Not applicable
		Revision Number	1.0
			Not available

Section IA. First Aid Measures**Phosphoric Acid 85%**

Eye contact	Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.
Skin contact	Wash with soap and water. Get medical attention if irritation develops or persists.
Hazardous inhalation	If inhaled, remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Get medical attention immediately.
Hazardous ingestion	If swallowed, do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Loosen tight clothing such as a collar, tie, belt or waistband. Get medical attention immediately.

Section II. Hazardous Ingredients**Phosphoric Acid 85%**

Name	CAS #	% by Weight	TLV/PEL	LC ₅₀ /LD ₅₀
1) Phosphoric Acid	7664-38-2	85	TWA: 1 STEL: 3 (mg/m ³) from ACGIH (TLV) [United States] TWA: 1 (mg/m ³) from OSHA (PEL) [United States]	Not available.

Section III. Physical Data**Phosphoric Acid 85%**

Physical state and appearance	Clear liquid.	Odor	Odorless.
pH and Solution Conc.	1 to 1.5 (1% solution)	Taste	Not available.
Odor threshold	Not available.	Color	Colorless.
Volatility	15% (w/w).		
Melting point	21°C (69.8°F)		

Continued on Next Page

Phosphoric Acid 85%		700423	Page Number: 2
Boiling point	135 to 158°C (275 to 316.4°F)		
Specific gravity	1.6 to 1.7 (Water = 1)		
Vapor density	Not available.		
Vapor pressure	The highest known value is 0 kPa (@ 20°C) (Phosphoric Acid).		
Evaporation rate	Not available.		
Viscosity	Not available.		
Ionicity (surface active agent)	Not applicable.		
Critical temperature	Not available.		
Instability temperature	Not available.		
Conditions of instability	Not available.		
Dispersion properties	See solubility in water.		
Solubility	Easily soluble in cold water, hot water.		
VOC content:	0 (%)		
HAPs or TAPs	Clean air act (CAA) 112 accidental release prevention: Not Listed. Clean air act (CAA) 112 regulated flammable substances: Not Listed. Clean air act (CAA) 112 regulated toxic substances: Not Listed.		

Section IV. Fire and Explosion Data		Phosphoric Acid 85%
The product is:	Non-flammable.	
Auto-ignition temperature	Not applicable	
Fire degradation products	Not applicable	
Flash points	Not applicable	
Flammable limits	Not applicable	
Fire extinguishing procedures	Not applicable	
Flammability	Not applicable	
Risks of explosion	Non-explosive in presence of open flames and sparks, of shocks.	

Section V. Reactivity Data		Phosphoric Acid 85%	
Stability	The product is stable.		
Freeze/Thaw Stability	Not available.		
Hazardous decomp. products	Oxides of carbon	Not available.	
Degradability	Not available.		
Products of degradation	Oxides of carbon	Not available.	
	Not available.		
Corrosivity	Slightly corrosive in presence of steel, of aluminum, of copper.		
Reactivity	Incompatible with oxidizing agents, combustible materials, metals, alkalis.		

Section VI. Toxicological Properties**Phosphoric Acid 85%**

Routes of entry	Skin contact. Eye contact. Inhalation. Ingestion.
TLV	Refer to Section II. Hazardous Ingredients.
Toxicity to animals	Acute oral toxicity (LD50): 1530 mg/kg [Rat]. Acute dermal toxicity (LD50): 2740 mg/kg [Rabbit].
Chronic effects on humans	Repeated or prolonged contact with spray mist may produce chronic eye irritation and severe skin irritation. Repeated or prolonged exposure to spray mist may cause upper respiratory disease. No carcinogenic substances as defined by IARC, NTP and/or OSHA.
Acute effects on humans	Corrosive. This product is a severe eye irritant. Eye contact can result in corneal damage or blindness. Skin contact may produce burns. Inhalation of spray mist can cause irritation or corrosive burns to the upper respiratory system including, nose, mouth and throat. Lung irritation and pulmonary edema can also occur. Can be fatal if swallowed.
Aquatic Toxicity (LC50)	Not available.

Section VII. Preventive Measures**Phosphoric Acid 85%**

Waste information	Waste must be disposed of in accordance with federal, state and local environmental control regulations.
Waste stream	Not available.
Storage	Keep container tightly closed. Keep container in a cool, well-ventilated area.
Precautions	Keep locked up. Keep container dry. Do not ingest. Do not breathe gas/fumes/vapor/spray. Never add water to this product. In case of insufficient ventilation, wear suitable respiratory equipment. If ingested, seek medical advice immediately and show the container or the label. Avoid contact with skin and eyes.
Small spill and leak	Dilute with water and mop up, or absorb with an inert dry material and place in an appropriate waste disposal container. If necessary: Neutralize the residue with a dilute solution of sodium carbonate.
Large spill and leak	Corrosive liquid. Poisonous liquid. Stop leak if without risk. If the product is in its solid form: Use a shovel to put the material into a convenient waste disposal container. If the product is in its liquid form: Absorb with DRY earth, sand or other non-combustible material. Do not get water inside container. Absorb with an inert material and put the spilled material in an appropriate waste disposal. Do not touch spilled material. Use water spray curtain to divert vapor drift. Use water spray to reduce vapors. Prevent entry into sewers, basements or confined areas; dike if needed. Call for assistance on disposal. Neutralize the residue with a dilute solution of sodium carbonate. Be careful that the product is not present at a concentration level above TLV. Check TLV on the MSDS and with local authorities.
Protective clothing in case of large spill	Splash goggles. Full suit. Boots. Gloves. Suggested protective clothing might not be sufficient; consult a specialist BEFORE handling this product.

Section VIII. Classification**Phosphoric Acid 85%**

DOT	Class 8: Corrosive material
	
	Not available.
	Phosphoric acid, Solution, 8, UN1805, III
	RQ Not available. Not available.
Maritime transportation	Not available.
HCS	CLASS: Corrosive material Not available.

**Federal and
State
Regulations**

Note: California Prop. 65 requires the listing of reportable chemicals that is believed to exist in this product at any detected, or suspected, level no matter how minute.

Pennsylvania RTK: Phosphoric Acid: (environmental hazard)

Massachusetts RTK: Phosphoric Acid

New Jersey: Phosphoric Acid

CERCLA: Hazardous substances.: Phosphoric Acid 85%: 5000 lbs. (2268 kg)

SARA 313 toxic chemical notification and release reporting: Not Listed.

Code: Corrosive

**International
Lists**

Not Listed.

Section IX. Protective Clothing**Phosphoric Acid 85%**

Face shield. Synthetic apron. Gloves (impervious).
